Prayer of Confession

Creator God we hold the seed of life that you have

given us, and we confess our need for:

a place to be planted

strength to break our shells,

nourishment for our roots,

light for our life,

We need weeding to rid our lives

of that which robs growth,

fruit to feed the future,

seeds to pass on for other plantings,

space to expand.

a place to die, and

something to return to

di this soil that nurtured

our growth.

Lord God, Grower of all, give us a place where there is room to grow.
